

	Background: Learning to Sport	Background: First Interest in Billiards	Background: Last Time You Played
The first comp	Played sports since they were young, immediately jumped into it.	Drank alot and Billiards was the atmosphere of the bar	3 Months ago
On a scale of	Yes Months ago when learning how to curl. Just played it, but prefers a tutorial system or a well-documenting community.	Played with father, pool table at house, plays because it is a family bonding experience	3 Months ago in the summer
Do you have t	Not much. Only did sports required for school.	Seemed like a fun thing to play at a bar and to hang out with friends for.	A few months ago.
Do you prefer	They first asked about rules of the game and then they practiced with people at their skill level.	Played at a bar with their partner	Half a year ago
Think back to other social media applications you have used in the past. What features do you enjoy most from these applications?			
Lastly, when considering thes			

Background: Preferred Location to play	Task 1 Notes	Task 1: Able to login	Task 1: Navigate to Profile
Down Lo: Bar	Their process was Home->Login-> Signup -> Signin -> Profile; Wants fastest game time won/lost, and for the signup to auto-log you in.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Home table, since you can play anytime with instant access	Home -> Login -> Enter Username -> Profile; Described the profile as boring looking. With things being displayed better with appropriate icons and graphics. Does enjoy that both previous match and drill history was available.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Down Lo	From the question, it implies they already have an account, so they just need to login. They click on boxes and it showed details already filled out. They clicked on profile after being logged in. They said that there was no way to share their stats to someone else.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Prefer to play in a bar with billiards	They know they needed to login, so they clicked on the bars and then they clicked on the sign-in button. Afterwards, they clicked on the profile tab in the Nav Bar, then they scrolled to the stats.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>

Task 1: Completed	Task 2 Notes	Task 2: Able to Navigate to Drills List	Task 2: Give feedback on Drills page
<input checked="" type="checkbox"/>	Profile page -> Drills to the fundamentals page, Instructions -> Next step -> Replicate the drill. Would prefer videos instead of play by play.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	Profile page -> Sorted by difficulty -> Fundamentals; Likes the star system, but the instructions could be better. Dots could be placed on the table, along with hypothetical shots with a red-line and being more descriptive of where to hit certain balls with a diagram,	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	They're on profile page, so they went to drills page from Nav Bar. Then they sorted by difficulty to find easiest drill by clickin on the "Sort" filter. Then, they found the lowest rated drill, but they could not click on the drill, they were not sure if it was supposed to be interactive. There's a bug where clicking on the "sort" button makes the drills "untouchable", touching them does nothing.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	They are on Profile section and then they clicked on the Home tab on the Nav Bar. Then, they clicked on the drills section in the Home Page. Afterwards, in the Drills page, they scrolled down until they found the Fundamentals drills, then they clicked on it. Then, they were able to read the instructions to setup the pool table and they clicked on the arrow to go to the next slide and they were able to read the instructions based off that slide.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>

Task 2: Completed	Task 3 Notes	Task 3: Able to Navigate to news section	Task 3: Able to Search by author for information
<input checked="" type="checkbox"/>	Fundamental Drills page -> News Section to Christmas,	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	From Profiles page, navigated through the navbar, to the 1 santa article, and to the gifts section. Wishes there was a author, or something of the sort. and a better date system.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	They were on the drills page and they click on the "news" tab on the navigation bar, then they scrolled down and clicked on the Santa article. But, they get confused from seeing the search bar and sort by buttons on the top in the article page as they assumed they could click on them, but nothing happened.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	They clicked on the "News" tab in the Nav Bar and then clicked on the Santa article.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>

Task 3: Completed	Wrap Up Extra Thoughts	Wrap Up: Likes Dislikes
<input checked="" type="checkbox"/>	Change Color - "Ugly", "Looks like shit"	Dislikes that the prototype is limited, no player or about section
<input checked="" type="checkbox"/>	Practical, more visual variants would make the site more interesting.	No dislikes, likes the drills system
<input checked="" type="checkbox"/>	Easy to find pages and the navigation bar is really small, so someone could potentially miss it.	They liked that it was easy to find the information and the login was simple. However, they didn't like that the drills did not lead to another page and it was not working after they sorted the drills (i.e. a bug). They wanted to see a logout features
<input checked="" type="checkbox"/>	Liked the website as it was useful and not too cluttered.	Like the drills section as it had useful features like the search bar and the sort button. They want Nav Bar to highlight what page they are on.
<input type="checkbox"/>		
<input type="checkbox"/>		

Wrap-up Thoughts on drill page	Wrap-up Have you ever used a product like this before?
Likes the ability to sort on difficulty	No, No training product
Likes the very easy to difficult & who it is by.	Not really would consider using.
They liked that they could see the difficulty on each of the drills and that the drills page gave a good, brief description of each drill.	No
Looks nice and they like the sort button.	No

Wrap-up: Additional Features	Wrap-up: Comments
Video Presentation of the material	None
Billiards Competition Clips, Expert Walkthrough for more difficult drills.	Nope.
A logout button. A prompt that asked users after logging in about their experience with billiards, so they are automatically assigned drills based off their responses.	None
They would like to see clips of the shots/drills presented in the drills page.	None
